

pure beauty® Stick Antiperspirant Hair Minimizing

pure beauty® Stick Antiperspirant Hair Minimizing rich in natural extracts that works on lightening the Under Arm area, also it ensures durable protection from sweat. In addition active ingredient Palmatine that comes from herbal source works naturally on minimizing hair growth in the under arm area.

Active Ingredients

1 ALUMINUM ZIRCONIUM

Aluminum Zirconium Tetrachlorohydrate is selected for its ability to obstruct pores in the skin and prevent sweat from leaving the body. Its anhydrous form gives it the added ability of absorbing moisture. It works by diffusing into the sweat gland and forming a colloidal "plug" which limits the flow of sweat to the skin surface. The plug is gradually broken down and normal sweating resumes.

Aluminum Zirconium Tetrachlorohydrate is considered safer than aluminum chloride and aluminum chlorohydrate. Aluminum Zirconium Tetrachlorohydrate is particularly effective at closing pores and absorbing moisture.

Aluminum compounds have a history of effectiveness as antiperspirants in deodorants. That is why you will find them in almost all the antiperspirant deodorants available. Depending on how much trouble you have with perspiration, you may want brands with stronger aluminum compounds. Whatever you end up purchasing, it is likely that the deodorant will be effective at preventing excess perspiration if it contains aluminum antiperspirant ingredients.

2 DIACETYL-BOLDINE

Diacetyl-boldine is a solution that inhibits the activity of tyrosinase. It is used for its skin lightening properties. Diacetyl-boldine (DAB) works well via α -adrenergic antagonist receptors and calcium flow regulation. This product is recommended for use in skin lightening products. It is recommended for use in emulsions, soaps and make-up products with lightening or whitening properties.

Diacetyl Boldine is an extraordinary new antioxidant product made from Chilean tree bark that gives dramatic results in controlling melanin, the pigment that makes skin darker.

3 PALMATINE

Palmatine is a natural extract of an Asian plant *Fibraurea recisa*. It suppresses hair growth to reduce shaving, waxing, and other depilatory chores, while it softens remaining hair strands.

The fruit of *Butyrospermum parkii* is gathered, cold pressed and refined to form a soft paste, known as Shea Butter. Shea Butter is a plant-based emollient that mimics the lipid content of the skin. It works wonders on dry and dehydrated skin and deep wrinkles, promoting a soft, smooth, healthy appearance.

Ingredients: Cyclopentasiloxane, Stearyl Alcohol, Aluminum Zirconium Tetrachlorohydrate Gly., PPG-14 Butyl Ether, C12-15 Alkyl Benzoate, Caprylic/Capric Triglyceride, Hydrogenated Castor oil, Dimethicone, Tribehenin, Polyethylene, Diacetyl Boldine, Sorbitan Laurate, Parfum (Fragrance), Nylon-12, Palmatine, Steareth-100, Talc.
